Orange – North	L			2, 2.5, 3	D
				Bi-level	F
				Split level	F
				RR	F

To determine a NBHD (neighborhood code):

The 1st digit is the town: “H” Hinsdale
The 2nd digit is the land location: North is north of Ogden Avenue., Central is from Ogden Avenue to RR tracks, South is from RR tracks to 55 th Street.
The 3rd digit is the age group, which is based on the ages of all additions. Garages and porches do not affect the age of the house. Full 2 nd story additions or a 100% increase in square footage, use the age of the additions. If less than 100%, average years. If less than 25%, use original year built. To be used as a guideline only!
The 4th digit is Story Height: The story height having the most SF is listed first, the next most SF is listed next and so forth.
